# Mr. Devendra Singh Sehgal

## Joins as CEO of IGRPL!

Mr. Devendra Sehgal has joined as Chief Executive Officer (CEO) of IOC GPS Renewables Pvt. Ltd. (IGRPL)

A Civil Engineer from NIT Surat and MBA from Guwahati University, Mr. Sehgal brings 39 years of experience in leading large-scale infrastructure and petrochemical projects. He played a key role in Indian Oil Corporation's **Mega Refinery and Petrochemicals Projects**. He served as **Director on the board** of Hindustan Urvarak & Rasayan Limited, overseeing major fertilizer plants.

His expertise spans the entire project lifecycle, from conceptualization to commissioning, with contributions to projects like **Panipat Refinery, Mathura Refinery, Paradip Petrochemical Project and Panipat Naphtha Cracker Project**. His leadership in strategic planning, project execution, and cost optimization has enhanced efficiency and innovation.

Before joining IGRPL, he served as **Executive Director** at Indian Oil Corporation Limited (IOCL).

## Mainak Joins Industry Leaders to Discuss India's Investment Potential

In collaboration with Invest India, Page Executive recently hosted an insightful breakfast session on India's position as a global investment hub. The event brought together 40 CXOs from the energy, renewables, automation, and manufacturing sectors to discuss the country's growth outlook, key economic drivers, and the role of government and industry in addressing skill gaps.

Our CEO, Mainak Chakraborty, joined the esteemed panel alongside Vivek Srivastava and Nishant Baranwal, sharing valuable insights on the evolving investment landscape in India.

## Building Team Spirit, One Game at a Time!

At GPS Renewables, we believe a strong team isn't just built in boardrooms, it's also forged on the field! Our **Friday Sports Evenings** bring our teams together for badminton, cricket, table tennis, and more, giving everyone a chance to unwind, stay active, and enjoy some friendly competition.

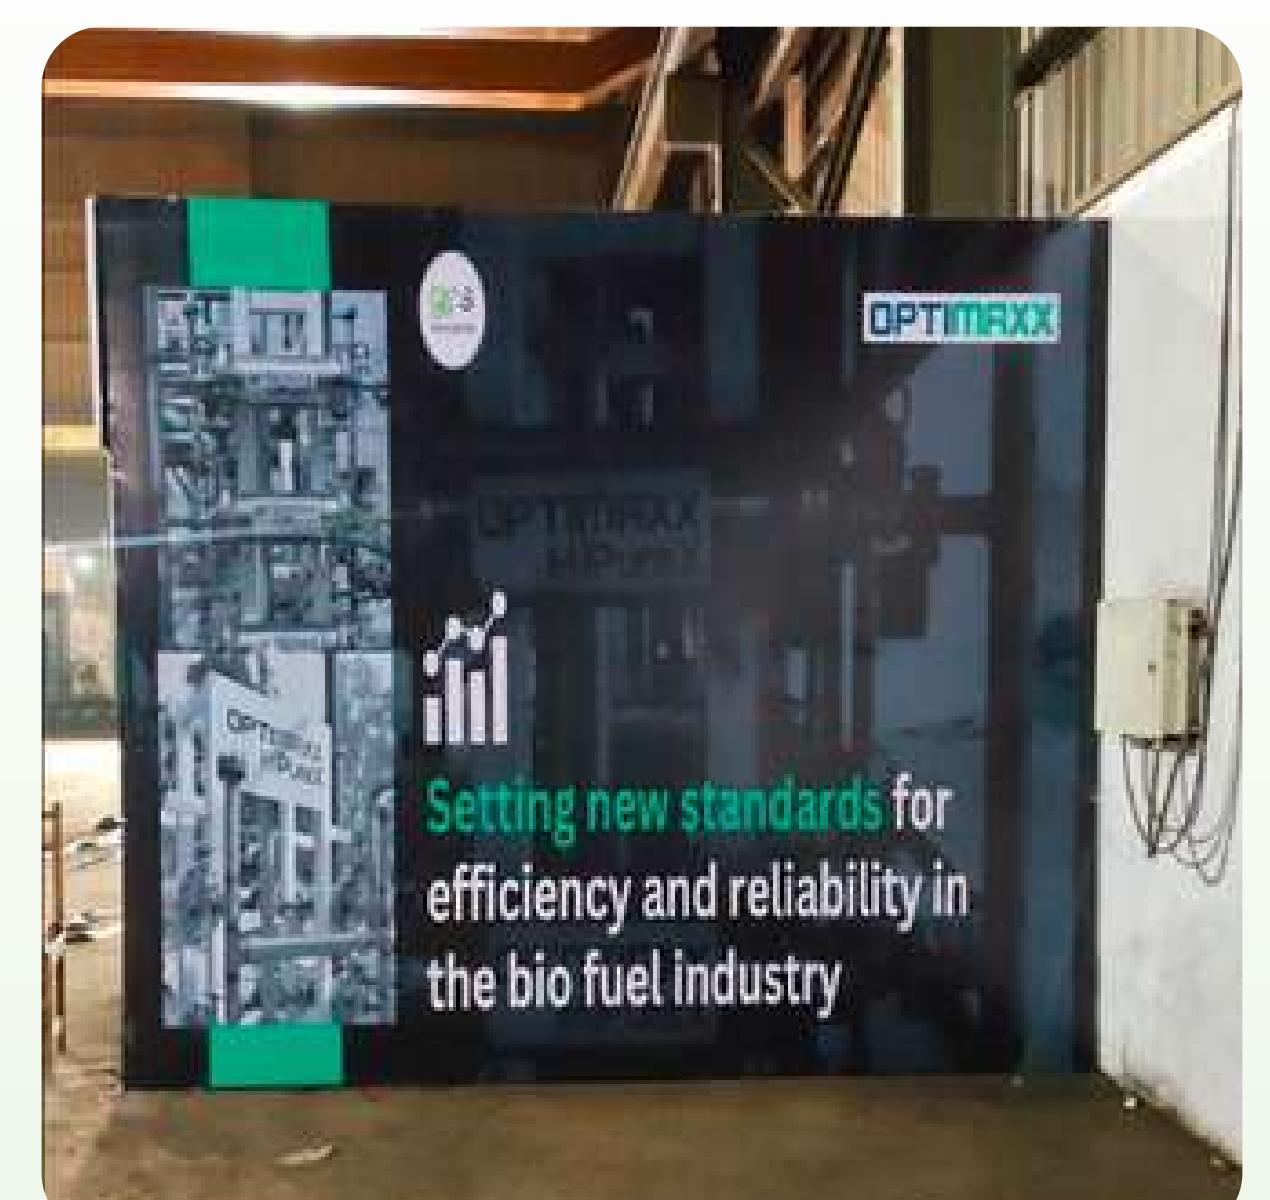

From smashing shuttlecocks to scoring sixes, these sessions are all about team bonding, energy, and fun- just like how we work together daily.

Here's to keeping our minds sharp, our bodies active, and our teamwork stronger than ever!

## Jamnagar: Founder's Office Team Visits Bioenergy Technology Centre

The Founder's Office team recently visited the Bioenergy Technology Centre, where a dedicated manufacturing unit for our OptiMAXX biogas upgradation solution is being set up in Jamnagar. This facility will enhance our capabilities in delivering advanced biogas solutions.

## GPS at HelloCBG Webinar

Sankalp Pathak from GPS Renewables recently participated in the HelloCBG Webinar, joining industry experts to discuss advancements in Compressed Biogas (CBG) production.

He shared insights on gas purification technologies, automation in CBG plants, and emerging innovations in the sector.

## Navigating Procurement Challenges in India's CBG Revolution

As part of Venwiz's thought leadership series, (Pro)<sup>2</sup>, our SVP of Procurement, Hardik Lalani, sat down with Venwiz Founder & CEO, Rajesh Reddy, to discuss how GPS Renewables has streamlined project execution at scale through smart, efficient procurement strategies.

Scaling high-growth projects isn't just about increasing resources—it's about optimizing processes to ensure speed, efficiency, & long-term success.

## Budget 2025: A Game-Changer for India's CBG Industry?

Our CEO, Mainak Chakraborty, highlights a key expectation from Budget 2025—a complete tax holiday for the Compressed Biogas (CBG) industry. Here's why it matters:

- Energy Security – Reducing India's reliance on fossil fuels with a strong CBG sector.
- Pollution Control – Converting crop stubble into clean energy instead of burning it.
- Net Zero Goals – Accelerating India's transition to sustainable energy.

[Watch the video](#)

A supportive policy framework could unlock the full potential of CBG as a future-ready fuel.

## GPS Sites Lead the Way!

GPS Renewables was ranked as the best LSTK partner for Health, Safety, and Environmental (HSE) performance among all partners in Reliance's CBG projects. All our projects collectively secured top rankings, achieving a remarkable score of 87.5.

**A proud moment for all at GPS Renewables!**

## Jhajjar 01 » Project Updates

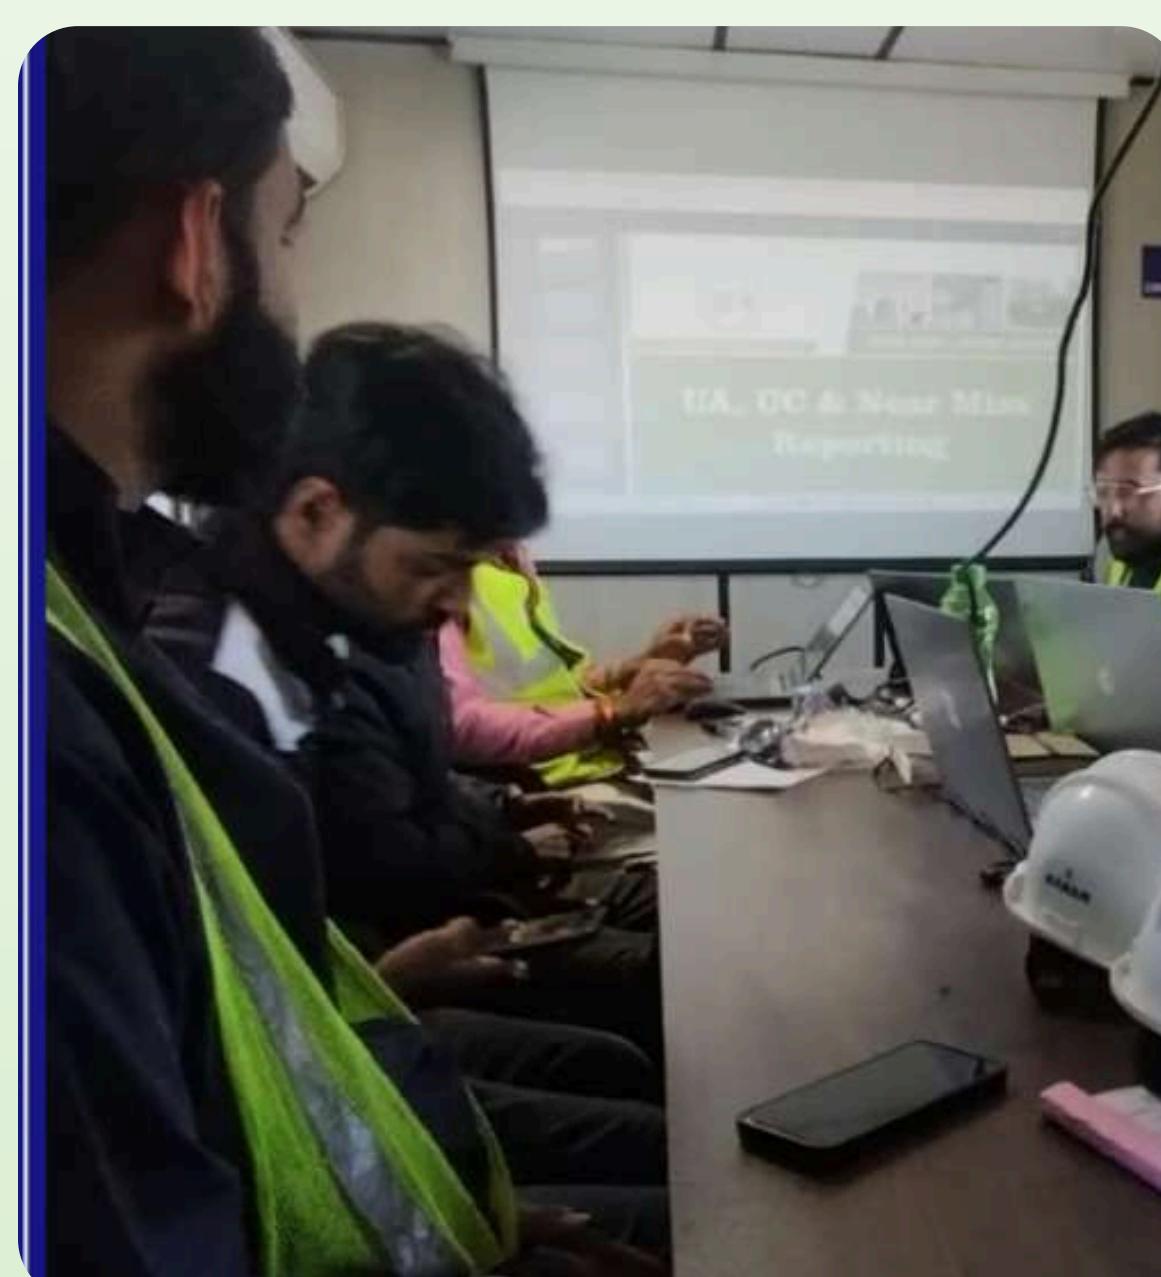

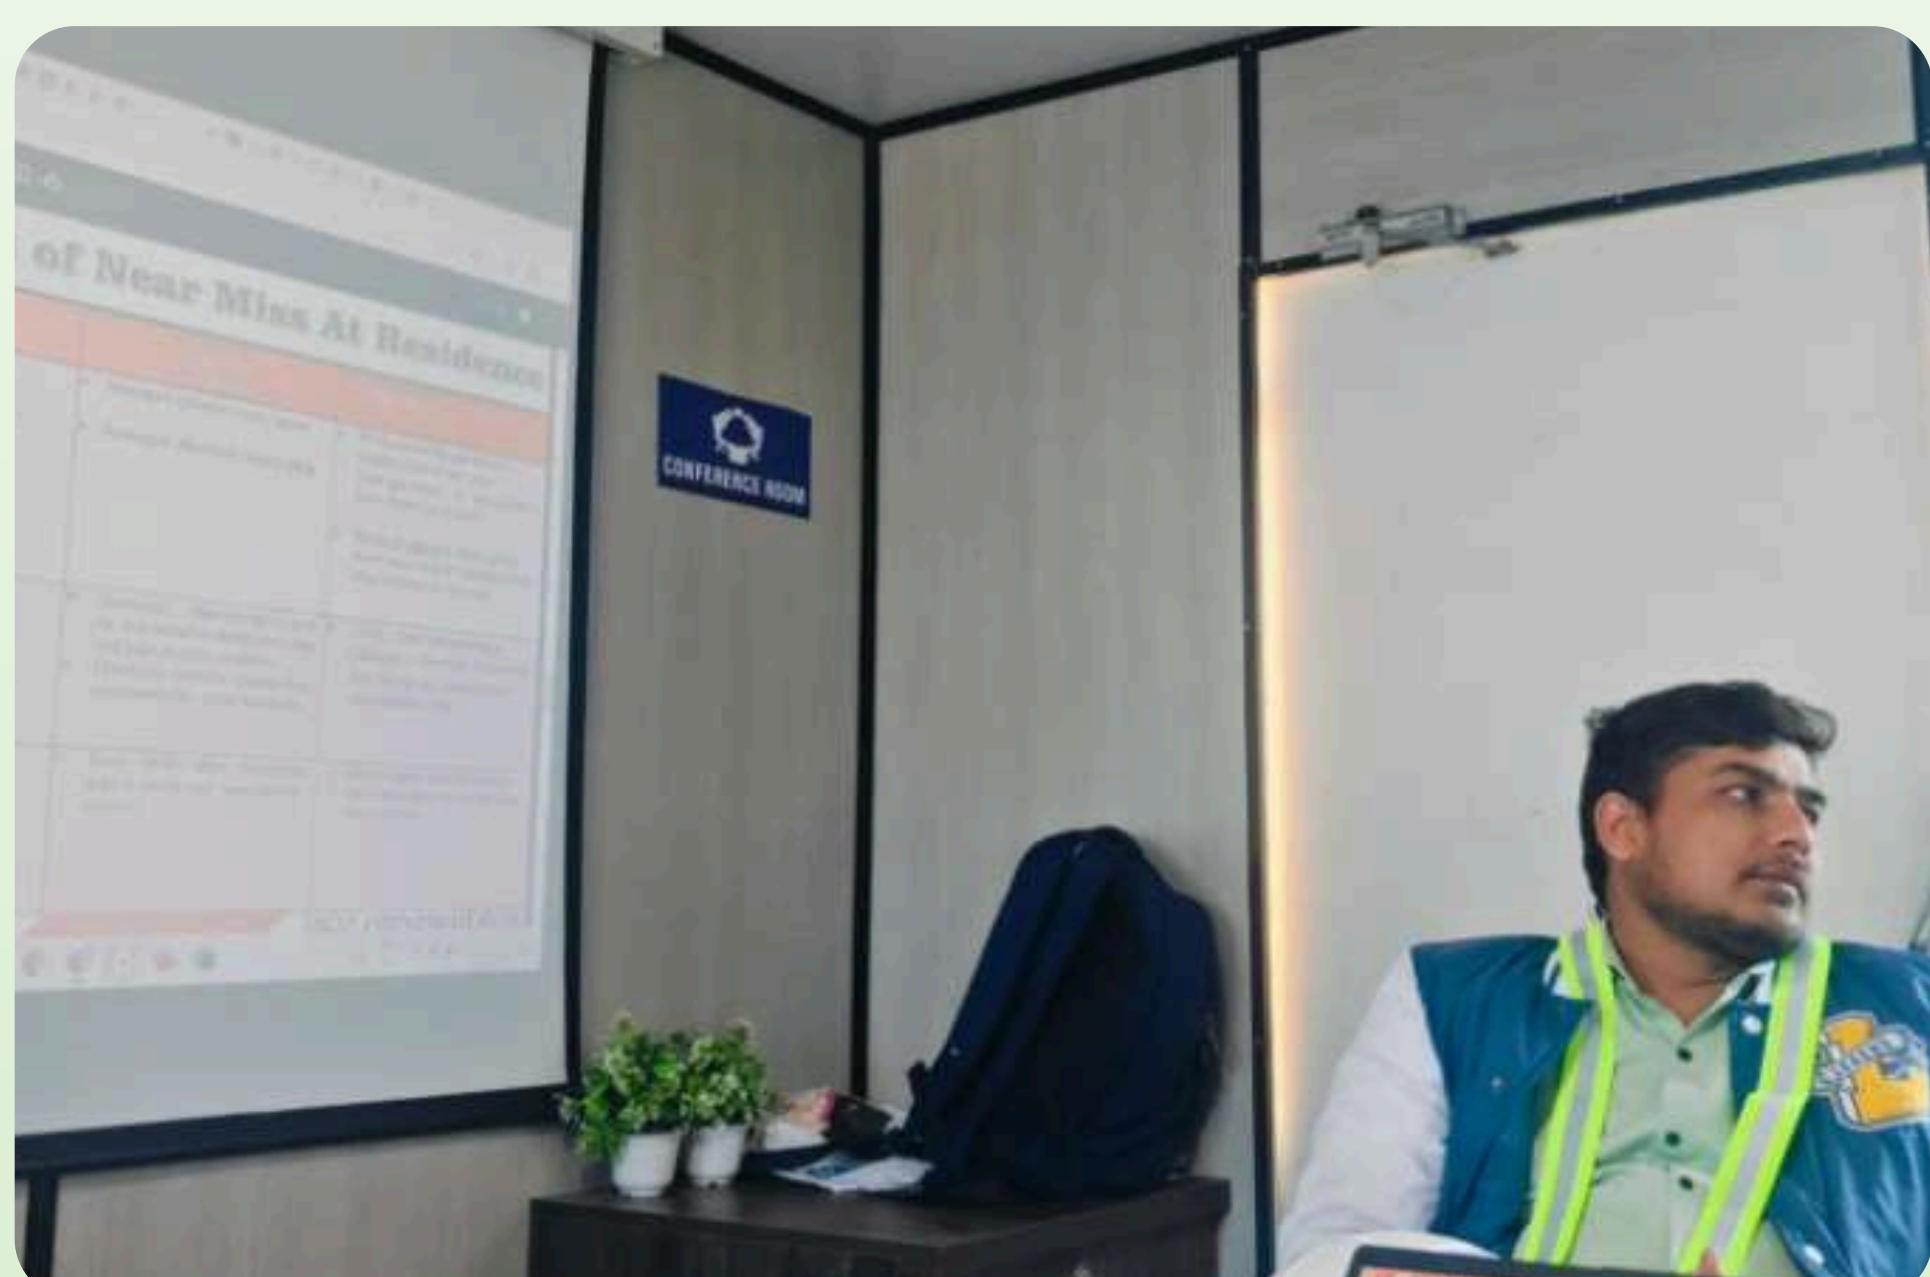

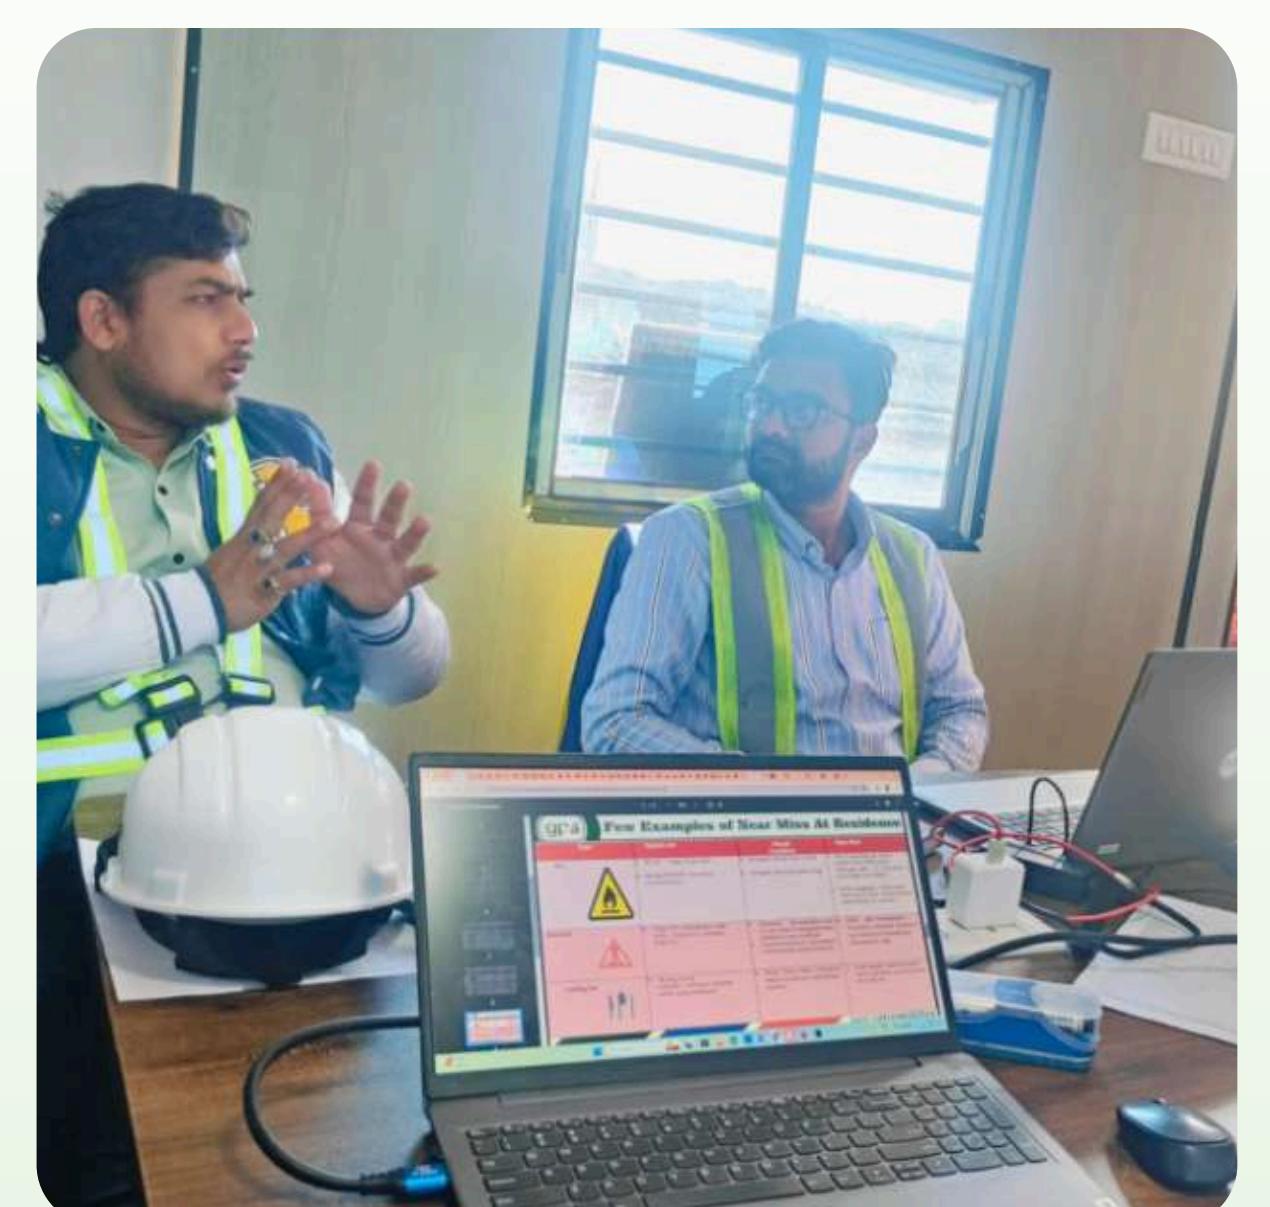

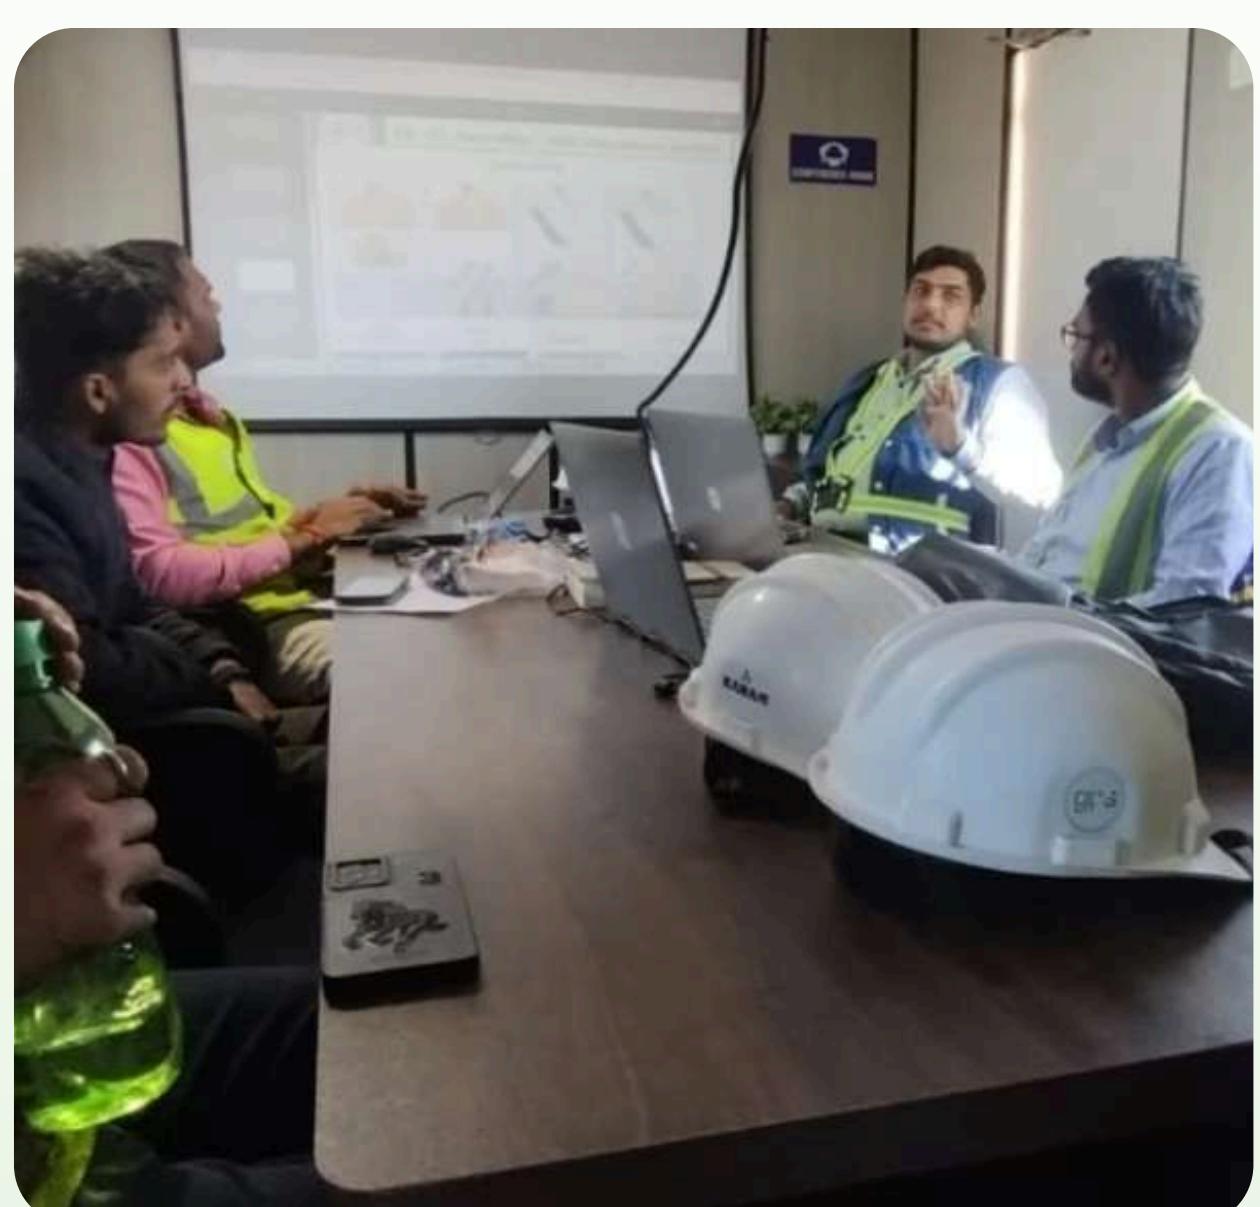

The extruder commissioning was completed on 14th February, as per the scheduled timeline
